

# DOT Physicals

## Agile clinics are specialists in physical testing for commercial drivers

Agile, a trusted provider of occupational health services, offers fast and convenient Department of Transportation (DOT) physical exams by our fully licensed Certified Medical Examiners. The Federal Motor Carrier Safety Administration (FMCSA) mandates a physical examination for all commercial motor vehicle (CMV) drivers to determine if a driver is physically, mentally, and emotionally fit to operate a CMV.

Commercial drivers are required to complete and pass a DOT physical to maintain a valid commercial driver's license (CDL) for their own safety and the public's safety if they drive a vehicle that:

- Have a combined gross vehicle weight of 10,001 lbs. or more,
- Is designed or used to transport 15 passengers
- Paid operator designed to carry more than eight passengers
- Transport hazardous materials that required placards

Intrastate drivers, or drivers that stay within one state, may also require a DOT physical depending on the regulations that are specific to their states.

Our DOT Medical Exams take place right inside any of our conveniently located clinics. We pride ourselves in our short wait times and fast exams!

# DOT Physicals

## What to expect for a DOT physical

When a driver arrives for their DOT physical, a certified medical examiner (CME) will perform a physical examination that may include:

- Vital signs
- Review of medical history
- Hearing and vision
- Heart and Lungs
- Extremities
- General physical appearance

Our Medical Examiner will fill out a Medical Examination Report for Commercial Driver Fitness Determination form and will issue Medical Examiner's Certificate/DOT Medical Card if all is in order. Both of these documents will be completed during the exam and will be provided to a driver before they leave or we can fax documents directly to employers.

## Fleet DOT physicals

**As an employer of commercial drivers, you must comply with federal regulations for DOT physicals**

Agile knows the transportation industry. We are current with all DOT rules and regulations and require our physicians to be FMCSA National Registry certified. We provide several DOT-related services to keep employers and their drivers safe and compliant, including:

- DOT Physicals
- DOT Drug Testing
- Testing Policy Development

Agile is a reliable and affordable solution for your DOT physical needs. Because of our focus in transportation, we are fast and affordable because we know truckers can't afford to waste time or money.

**Contact us today to set up a cost effective and convenient physical testing program for your fleet.**
