

Employer Portal

Manage the health of your workforce fast & effectively

Agile's Employer Portal is a secure platform that provides 24/7 access to employee test results and reporting for injury and screening visits. Our intuitive interface design makes navigation to the information you require easy, whether you're looking for a work status report, pre-employment clearance, or need to look up visit history for your employees.

At Agile, we understand that effectively managing the health and safety of your workforce is a top priority. The Employer Portal provides you and your team with efficiency and real-time insights.

Portal Features include:

- 24/7 Access to injury work status reports and scheduled visits
- Clinical results and documentation updated in real-time
- Manage employee regulatory and compliance testing
- Enhanced search functionality for quick results & historical documentation
- Unlimited users can assign work statuses or results to specific users
